INFORMATION DISCLOSURE STATEMENT

Submitted herewith is an International Search Report (3 pages
PCT/ISA/210) by the EPO European Patent Office as the
international searching authority from the international
application, listing 10 cited references. The references cited in
the International Search Report are believed to have been
transmitted to the PTO by the International Bureau (PCT/IB/308).

In the event this is not the situation please inform attorney and copies of these references will be filed.

In the International Search Report the reference listed with an A means that this reference defines the general state of the art which is not considered to be of particular relevance with respect to the listed claims. The references listed in category X means each document is of particular relevance; and the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is considered alone, with respect to the listed claims. The references listed in category Y mean the documents are of particular relevance, and the claimed invention cannot be considered to involve an inventive step when the documents of this category are combined with each other, such combination being obvious to a person skilled in the art, with respect to the listed claims. For relevance of the references/documents please refer to the International Search Report (copy enclosed) which is in the English language setting forth the relevance of the references, so no further concise explanation should be required. The third page of the International Search Report is in German wherein

the German words: "Datum der Veroffentlichen" mean date of the publication; "Mitglied(er) der Patentfamilie" mean member of the patent family; and the German words in the first, left-hand column mean Patent document quoted in the search report.

One PTO-1449 form is presented to list all 10 references disclosed in the International Search Report. Translations of the foreign language references are not available to the undersigned. This submission meets the requirements of 37 CFR §1.56, 1.97 and 1.98(a) and MPEP 609.

Respectfully submitted

Joachim Bandemer, et al
